

A Workshop Presented by 95 Percent Group

Response to Intervention (RTI): For Grades K–1

According to a national RTI implementation study, statewide training efforts are underway in more than 90% of the states. Yet it was reported that the state-provided training primarily emphasizes an overview of RTI. What schools are requesting are practical tips for how to implement RTI rather than information on legal and regulatory aspects. This workshop provides the tips and tools we've offered to hundreds of schools across the country as we assisted them in implementing RTI.
